**Von Ken MacLeod : The Star Fraction: The Fall Revolution Sequence** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Star Fraction: The Fall Revolution Sequence:

Kurzbeschreibung Britain in the 21st century is a Balkanized mess. Moh Kohn is a security mercenary unaware that he holds the key to information which could change the world. Janis Taine is a scientist who needs Moh's help. And a rogue computer program is guiding events to a breathtaking conclusion. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

deA Ken MacLeod book is like a crowded college coffeehouse: noisy, bustling, a little rowdy, and packed with enough wild ideas and competing ideologies to leave you reeling. Star Fraction, MacLeod's 1995 debut, is no exception. As the first installment in the Fall Revolution sequence (followed by *The Stone Canal* and *The Cassini Division*), Star Fraction established this Scottish author's formidable talent for mixing complex politics and cyberpunk action into smart, funny stories. MacLeod avoids heady political theorizing by always personifying his ideas in believable, often articulately passionate characters. (Or as one character puts it, "In my experience politics is guys with guns ripping me off at roadblocks.") Star Fraction's putative protagonists--a Trotskyite mercenary, a fugitive university researcher, and a fundamentalist-turned-atheist programmer--are on the run after a chance combination of marijuana, experimental memory drugs, and a self-aware firearm threatens to awaken a powerful AI on the nets, much to the dismay of the Men In Black and the orbital-laser-wielding U.S./UN. (As with all MacLeod plots, don't bother asking--it's a long story.) With its ultrabalkanized UK and convoluted cast of neo-Stalinists, AI-Abolitionists, Christianarchists, feminists, et al., Star Fraction is MacLeod at his best--even at his first.

--Paul Hughes *Pressestimmen* "Ken MacLeod is a one-man revolution." -Asimov's SF "Science fiction's freshest new writer." -Salon "He is writing revolutionary science fiction. A nova has appeared in our sky." -Kim Stanley Robinson
