Von Ein Kunde I found this book to be very refreshing in the fact that its central character is a 40 something widow, and not some bimbo that no one can relate to. I absolutly could not put this one down the first time I read it, and I still get enjoyment out of it many times after that first read. I think the Black Lace Series is truly a

step ahead of the competition when it comes to writing women's erotica. Ever time I can, I try to expand my collection, and you should do the same. And then, introduce your friends. Their sure to love it as well!1 von 1 Kunden fanden die folgende Rezension hilfreich. Isn't this every woman's secret fantasy??Von Ein KundeWow! This book was really hot! All I can say is, I would LOVE to find a guy like that wandering around the grounds of my estate. Their early encounters are perfect -- taut with the uncertainty of the unknown, the forbidden, but still with a strong erotic charge. And things only get better as each explores previously-hidden, or forgotten, passions.
