KurzbeschreibungThe aliens have landed, and this time theyre not hostile. Theyre just rude. Coming in waves of rocket ships, the aliens not only refuse to acknowledge the existence of Earths culturesthey refuse to acknowledge the existence of humanity itself. The aliens by means of their bulk block entry into cars, grocery stores, even elevatorswithout malice or even purpose.No one knows what its like to be ignored by the aliens more than Craig Mencken, an amateur journalist who writes inane copy for a magazine tycoon. A pair of aliens have invaded his home, abused his furniture, and disrupted his life. Who thought first contact could be such a nuisance? But when Menckens employer demands the story of the century, a fictional interview with an alien, the sinister truth about the invasion is accidentally revealed. Soon Menckens ex-boyfriend is dropping hints about a mysterious cabal that promises to rid the aliens from neighborhoods as exterminators do with vermin. Then a narcissistic federal agent wants Mencken to spy on the cabal for the sake of his country. As if life werent already hard enough, the dozerscubic machines capable of demolishing skyscrapers in minutesstart landing across the globe, and it does not seem likely the aliens will ignore mankind for much longer.A finalist for the Lambda Literary Award for Best LGBT Fantasy/Science-fiction/Horror title!

The invasion of the earth by a race of socially oblivious couch potatoes. The Survivors by Sean Eads begins as a romp, then turns much darkernicely done! Richard Bowes, Lambda Literary Award-winning author
