Von Sandra Brown : The Switch (English Edition) before purchasing it in order to gage whether or not it would be

worth my time, and all praised *The Switch* (English Edition):

Kurzbeschreibung From #1 New York Times bestselling author Sandra Brown comes another masterful creation, a riveting novel of suspense, revenge, and unpredictable twists and turns... When Melina suggests that her twin sister Gillian take her place as a media escort to an astronaut, she initially refuses. The following morning Melina is horrified to learn that her sister has been murdered. Now she must work together to learn the truth behind her sister's death, and discover the identity of the killer, whose plans are far from over.. Identical twins are fair game for a thriller writer, and in *The Switch*, queen of suspense Sandra Brown (*The Alibi*, *Standoff*, *Fat Tuesday*) makes the most of an intricate setup involving Gillian and Melina Lloyd, a pair of thirtysomething Dallas beauties. When Gillian hears her biological clock ticking, she puts herself in the hands of the world-famous Waters Clinic and is artificially inseminated (as described in a somewhat plodding first chapter that omits no detail of the procedure). The action picks up when Gillian switches places with her twin, a media escort, and chauffeurs sexy astronaut Chief Hart around town. It turns out to be a fatal attraction, and suspicion falls on Chief when Gillian's mutilated body is found the next day. The dead woman's smarmy and enigmatic boyfriend, Jem Hennings, has a vested interest in focusing police efforts on Hart, but Melina has her own reasons for thinking him wrong. Jem's connection with a charismatic preacher known as Brother Gabriel is at the heart of this mildly creepy mystery, in which the plucky Melina tracks Brother Gabriel to his lair and uncovers his diabolical plot while simultaneously revealing her own dark secret. The ending is telegraphed well in advance, but that won't deter Brown's many fans from relishing the details, including some sex scenes that are spicier than most of the florid prose that usually turns up in romantic thrillers of this sort. But that may be why the author inevitably rockets to the top of the bestseller list, where *The Switch* is destined to land. --Jane
