**Von Terry Brooks : The Talismans Of Shannara: The Heritage of Shannara, book 4** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Talismans Of Shannara: The Heritage of Shannara, book 4:

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. The greatest tale of good against evil concludes...Von Ein KundeThis book besides what many critics may say is

an excellent book. I must admit that it wasn't no Sword of Shannara- for I believe that was Terry Brooks's greatest book. This book is not for everyone, people with toddler's attention spans for instance will die in some places of the book. But here also lies a mix of battle, magic, and fast action that makes up for that. The one thing that some people just don't understand about the Shannara books is that its lessons and themes also run within the characters as well as the plot. Which is why this book has a tad more dialogue than more books but not that much. But it really is not all that much more. I believe if it was not part of a series, it wouldn't of gotten some of the bad reviews it got [which were not many to begin with]. For the sole reason that people were anxious and waited waited for the concluding series that they expected it to be the most magnificent written, flawless, and extraordinary book ever wrote in history. This is human to do it, just like when you wait forever to get your birthday presents- constantly thinking hoping about it you envision it to be greater greater all the time. Until you reach a point of too high standards for it in the first place. And people were impatient to find out the conclusion. So if you extremely impatient with things this book may irritate you. But if you have a normal patience level it should not even hint to be a problem. This is a book well thought out, strong in emotions, and well written. And seriously won't be the publisher's loss if you don't buy it but your own loss. 0 von 0 Kunden fanden die folgende Rezension hilfreich. So good, you have to buy the other 6! Von Ein Kunde I loved this book. The whole story comes to one final end, after 3 books full of running, screaming, and fighting. To date, I haven't had the chance to read The Sword of Shannara or its sequels; I started with the scions of Shannara, Book 1 of the Heritage of Shannara. The story of the Ohmsfords and Leahs is like a history class to me. But that makes it more exciting, because it puts you more in the place of Par, Coll, and Morgan. All three have magic, created several hundred years ago, and eventually given to them, which they use to defeat the Shadowen. I love that. The whole book is almost like an AD&D adventure; some have magic, some have brute strength, and some have nothing but their wits and a dagger. It makes it really exciting, because the battles and the characters are described excellently. It's so possible to imagine Walker facing off against the four Horsemen, or Coll chasing Par through the wilderness. I love this book, and its predecessors! I can't wait to get my hands on Sword of Shannara! 0 von 0 Kunden fanden die folgende Rezension hilfreich. My favorite book Von Zorknot Terry Brooks is my favorite author because, of the authors that I've read, he seems to have the most evil-seeming antagonists. The shadowen in the Heritage of Shannara series just reek of evil. A swarming pestilence that surrounds and destroys all that is virtuous. The Talismans of Shannara is my favorite book period. It is a book of characters getting out of apparently impossible situations and accomplishing their goals. It gives all the other books in the series, (which are admittedly a little disappointing because they don't seem to go anywhere), an endpoint, making the whole adventure complete. Talismans of Shannara is basically a great ending to a great series. It is comparable to the ending in Independence Day or Return of the Jedi. Evil is thwarted, but it WASN't easy. In order to know what's going on I suppose you ought to at least read the other Heritage of Shannara books, but in my opinion, Talismans of Shannara is crowning jewel of the works of Terry Brooks. I'd give it six stars if I could. W.B.R.

**Kurzbeschreibung** The descendants of the Elven house of Shannara have all completed their quests: Paranor, the Druid's Keep, has been restored; the Elves have been returned to the Four Lands; and Par Ohmsford has found what he believes to be the legendary Sword of Shannara. But their work is not yet done. The Shadowen still swarm over the Four Lands, poisoning all with their dark magic, and their leader is determined to prevent the scions of Shannara from sharing the knowledge that will end the sickness. To this end he sets his traps. For Walker, he will dispatch the Four Horsemen; for Wren, he sends an untrue friend; and for Par, he devises the most terrible fate of all... The charges given by the shade of the Druid Allanon seem doomed to failure - unless the Shannara children can escape the traps being laid for them, and Par can unlock the secret of the Sword of Shannara. From Publishers Weekly Brooks's resounding, action-filled conclusion to the Heritage of Shannara series was a nine-week PW bestseller. Copyright 1994 Reed Business Information, Inc. From Kirkus s Concluding the second series of Shannara yarns (The Elf Queen of Shannara, etc.) as the scions of Shannara--namely, the newly made Druid, Walker Boh, the Elf Queen Wren Elesedil, and the magical Ohmsford brothers, Par and Coll--somehow must unite their efforts in order to bring a final end to the evil Shadowen and their leader, Rimmer Dall. The latter, of course, has other ideas: he will send the Four Horsemen of the Apocalypse against Walker Boh; he will confuse Wren with a seeming friend who will betray her; Coll--even if he escapes the magic Shadowen cloak that is corrupting him--will seize the Sword of Shannara, to the consternation of Par, who thought the Sword intended for him; and Par, his magic wishsong growing ever more uncontrollable, will be seduced into believing that his true destiny is to become Shadowen himself... Flabby and predictable work, not helped by the whole increasingly threadbare Shannara concept, now clearly past its sell-by date. Still, fans of the series won't be dissuaded. -- Copyright 1993, Kirkus Associates, LP. All rights reserved.
