Von Inge-Lise Goss : The Tegen Cave: A captivating paranormal story of romance, mystery, and horror (Tegens Book 1) (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Tegen Cave: A captivating paranormal story of romance, mystery, and horror (Tegens Book 1)

(English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. 5 starsVon The Wizard of OzI hate spiders, yet I continued to read this creepy story that took me way out of my comfort zone and I did so because it really is very good. Suspenseful, at times terrifying, and, like I said, downright creepy. Recommended.1 von 1 Kunden fanden die folgende Rezension hilfreich. Grossartig!Von Thomas BakerThe Tegen Cave, by Inge-Lise Goss, is exceptional. It crosses genres in a way that lets you know this author is creative, imaginative, and she has the kind of license to innovate that most traditional authors would give their right arm to have. Inge's books do not have to fit neatly in its assigned genre shelf space, and she takes full advantage of that authorial freedom here.Readers benefit, because we get a taste of --dark fantasy, romance, suspense, horror, even the supernatural, all within the covers of the same book. The only real question that remains for me to answer is quite simple: Does she pull it off, or has she tried to put too many genres on her plate at one time to do any one of them proper justice?In my humble opinion, this talented author has acquitted herself admirably. No, she hasn't created a new genre to be emulated. Yes, she has left the field of cross genre literature wide open for others to attempt, but she has left the bar high indeed. The prose is there, it flows fluidly, the characters are well developed, the plot captivating and the climax is climactically, unpredictably, delightfully delicious! Well done Inge-Lise Goss. Highly recommended.1 von 1 Kunden fanden die folgende Rezension hilfreich. Terror with and without spidersVon hippoleinFor one thing, this book did keep me awake while trying to get to the end, missing some things I should have been doing that day, but it was worth it.As we follow the main person Sara in her struggle to find her own way her life, we find her stumbling with new feelings when she's not ready for them, getting lost in them, feeling sorry she followed them and then back to the start.But that is not the main thing why the story grips your attention. It's full of spiders (yes, if you're afraid of them, you will get to know the bad side of them, but also the good way of threating them) and of bad guys that turn out to be not that impossible, together with good guys that are not as innocent as you would love them.On the other hand, make sure you keep your attention focused while reading, as some facts are hidden nicely away and you could miss them in a first glimps!The story is nicely closed by the end, with still some possibility to write a follow-up. I'm very much looking forward to getting to know more books by this writer, certainly worth your time!

KurzbeschreibungHave you ever made a mistake that keeps coming back to haunt you?On the run from her ex-boyfriends powerful criminal family, Sara Jones hides in Billings, Montana. But when people around her start dying from poisonous spider bites after she receives a mysterious package containing a hidden spider, she worries that the family has found her. Can she escape?From its gut-grabbing prologue to its explosive conclusion, Gosss debut story gives new meaning to the phrase a blood-curdling adventure.Life takes an even more bizarre turn when Sara seems to be not only immune to the spider venom, but also surrounded by a sinister group of people using spiders to incapacitate their prey. Even her new boyfriend starts acting suspiciously. Just whom can she trust?Then to make matters worse Sara's twenty-fifth birthday approaches, and her dark heritage begins to emerge. She is forced to make a life-or-death decision. And somehow, she must find a way to deal with the crime family.An imaginative fantasy-thriller that will stimulate your senses. Some things, like spiders trained to kill, may seem far-fetched, and cult members eating the flesh of cadavers may seem abhorrent, but Dracula set that table long ago. Besides, given Gosss endowment of the cult with an air of historical respectability, the story is more imaginatively acceptable for anyone predisposed to the fantasy genre.Scroll up to grab your copy of The Tegen Cave now!KurzbeschreibungHave you ever made a mistake that keeps coming back to haunt you?On the run from her ex-boyfriends powerful criminal family, Sara Jones hides in Billings, Montana.
