Kurzbeschreibung In New York Times bestselling author Rebecca Cantrell's sequel to the award-winning *The World Beneath*, software genius, Joe Tesla, confronts an equally brilliant and far more powerful foe. Still crippled by agoraphobia and confined to the tunnels under New York City, Joe is haunted by the fact that he cannot even attend his father's funeral. His father's death brings threats to the safety of Joe's underground home: guilt over the broken relationship that can never be healed, a mysterious box of papers inherited from eccentric inventor Nikola Tesla, and a ruthless enemy determined to steal those papers no matter the cost. Mystified by why his inheritance is so valuable, Joe and his service dog, Edison, follow clues left a century ago by Joe's famous ancestor to reveal the power of his family legacy. While Joe must rely on his considerable talents as a hacker, he must also reach out to friends. But whom can he trust as he battles to save his beloved city from . . . *The Tesla Legacy*? Cantrell's virtues are her intimacy with her characters and her delicious sense of subtle details that bring out the characters and the scenes. *The Tesla Legacy* is a tight, fast-paced novel that's full of surprises. Matt Wenngraitis at *The Daily 400* The Tesla series is an excellent, original and addictive series. Rebecca Cantrell is firmly ensconced as one of my go to Thriller writers now. *Parmenion Books* Rebecca Cantrell has created a fast-paced thriller that you may just read in one sitting, as I did. *Stuff and Nonsense* An unusual setting and unique characters make this a wonderful listening experience. *AudioFile Magazine* The book is bringing together the legacy of genius Nikola Tesla, and the modern world...is as dangerous as the Tesla oscillator: start reading it and you will not be able to put it away. Highly recommended, and tell others. *All About Tesla* A great book, thoughtfully and intelligently written. *Claire Loves to Read!* I defy anyone not to become fascinated by the world of Joe Tesla and be bewitched by the unique writing style. Rebecca Cantrell deserves to have many more readers discover her books. She is brilliant. I want more Joe Tesla. *Northern Crime* Kurzbeschreibung In New York Times bestselling author Rebecca Cantrell's sequel to the award-winning *The World Beneath*, software genius, Joe Tesla, confronts an equally brilliant and far more powerful foe.
