Glad to

have a job he is still unsure why a man that has the wealth that Landry has works as a meager insurance appraiser. Landry doesn't want a body guard but his family friend/ butler insists he needs someone to protect him from his enemies. Why would an insurance appraiser have enemies? And what would Landry have to do with all the art thieving that is happening some even resulting in deaths? Thief is book two of the Marine Body Guard series but, stands alone just perfectly. I will also say its one of my favorite Patricia Logan books and a good place to start if you are considering reading one. I loved it. Landry isn't your common rich man. He has many secrets and they unfold through a very unique, funny and sexy story. I don't know what was funnier, the first meeting between Landry and Ranger over dinner with the shellfish or the first sex scene after Landry and Ranger when The butler shows up and Landry panics trying to hide Ranger A very big bodyguard. I also like the touch of realism and research this book must have required. I applaud Patricia for taking the time and writing this story. There is murder, intrigue and lots of twists and turns. So if you like a good mystery/suspense, a touch of humor, hot body guards, sexy, nerdy rich men (also men in suits) art and a some hot yet sensual man-sex this is a must read!

Kurzbeschreibung Former Marine and bona fide hero, Ranger Corrigan, is one paycheck away from joining his brethren among the ranks of Los Angeles homeless Veterans. When he is offered a great paying job in a palatial mansion, Ranger jumps at the chance for a roof over his head and a hot meal in his belly. Handsome and cultured Landry Metzel lives too well to be the insurance appraiser he claims to be, and Ranger can't help but want to know why he's been hired to protect an innocuous man with no enemies. Metzel certainly won't be sorry to see him go. As famous masterpieces suddenly begin disappearing from private collections, Ranger begins putting two and two together. When an LAPD detective starts asking questions about murders tied to the thefts, Ranger suddenly wants to learn more about the man he's hopelessly attracted to. A wisecracking former Marine, a man with a desperate secret to hide, and a murderous villain come together in a tale of murder, danger, intrigue, and the crime of the century.
