Regt zum Nachdenken an - ungewöhnlicher AnsatzVon -KundeDie Idee mit dem eigenen Leben (als Person, die sich je nach eigenem Befinden verndert) zu leben, ist einerseits witzig, andererseits aber sehr anregend und verfhrt zum Weiterlesen und letztlich auch zum Nachdenken ber manche eigene Situation. Lucy Silchester, the protagonist of this novel, has changed in the last years after she broke up with her boyfriend (or did he break up with her?) and quit her job (or did she get fired?). One day, she received an invitation from her Life to meet her. What would you do, if your life invites you to meet him? Well, Lucy decided to ignore it. But her Life kept sending her invitations to meet her and when they finally met she found out that she doesn't like her Life and Life doesn't really like her very much either. However, her Life has been very insistent on keeping seeing Lucy and show her that a life based on lies is not worth living. Lucy had to learn this the hard way, but with a little help from her Life, she found out what's important and what really makes her happy. And as it turned out, not only Lucy feels better but with every bit she learned, also her Life becomes happier. For me "The time of my Life" is so far the best book of Cecelia Ahern. It really makes you think about your own life and what you want to achieve. Thank you Cecelia for this book!

The book is about a woman who would rather pretend that she is happy than actually be happy. So far that's often the case with chick-lit. After denying herself a fulfilled life for quite some time, it knocks at her door and demands recognition. He comes along as a rather untended and harsh young man. Why is her life a male? Well, I wouldn't know and certainly don't understand. He helps her deal with her issues and while she starts to fix the mess that is her life he transforms into a well manicured young man. So far it sounds like a good story, but here comes the downside. Her mess/issues result from her inability to tell the truth. Supposedly her upbringing is the reason why she prefers to camouflage her failures with lies rather than recognize and deal with them. This is so uprooted in her behavior that she seems not to be able to tell one true word. Deception is her second nature, which appalls me. Usually I rush to buy/read Ms. Ahern's work, but I am sad to admit this one is a great disappointment to me. She usually delivers well crafted stories and characters with lots of imagination. Her books are mostly set in the real world, but have a magical touch to them. That's why I love reading them. Or rather need to say loved. The premise of "The Time of my Life" sounded intriguing, but to me it just was aggravating. For example - ATTENTION SPOILER - the scene where Donal is in her apartment while they are texting each other. Could it have been more obvious? If you haven't read an Ahern book before, please skip this one and start with "If you could see me now" or "A place called Here".

Kurzbeschreibung Lose yourself in the magical world of No.1 bestselling author, Cecelia Ahern. Are you taking your life for granted? Lucy Silchester is. She's busied herself with other stuff: friends lives, work issues, her deteriorating car, that kind of thing. But she's stuck in a rut and deluding everyone. Only Lucy knows the real truth. Time for a wake-up call a meeting with life. And life turns out to be a kindly, rather run-down man in an old suit, who is determined to bring about change and won't let Lucy off the hook. Sometimes we all need to make time for our life
