**Von Maeve Haran : The Time of their Lives (English Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Time of their Lives (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Not a page turner, but okVon Sherlock1974Maybe it's the fact that I am not yet the target audience for this novel, but honestly, "The Time of their Lives" is proved nothing to write home about.I enjoyed Haran's other novels, yet somehow I couldn't relate to her character as easily this time as with her other works.Still, an agreeable holiday read.0 von 0 Kunden fanden die folgende Rezension hilfreich. A Good ReadVon thomas n... for lovers of novels with

background. I've enjoyed it, the different ways of women approaching age. It is entertaining and about reality.

Kurzbeschreibung Haven't you heard? Sixty is the new forty . . . Each month best friends Claudia, Sal, Ella and Laura meet for drinks, celebrating 45 years of friendship. They know each other and their lives inside out. Their ambitions, careers, husbands, lovers, children, hopes, fears, the paths taken and not taken . . . Sal had spent a lifetime building a career as a successful magazine editor but she hadn't banked on the one thing over which she had no control. Claudia loved her urban existence - the thought of the country sent shivers down her spine. But, as many women will know, other people's needs always seem to come first . . . Ella is ready to try something different. But she hadn't bargained on quite such a radical change . . . Laura succumbed to the oldest cliché in the book. But it didn't make it any easier to accept. Outside of the supportive world of their friendships, they find their lives are far from what they expected - the generation that wanted to change the world didn't bargain on getting old. A truthful, provocative, funny and inspiring novel, *The Time of their Lives*, asks hard questions about what the world offers women as they get older and finds both moving and joyously uplifting answers in the different ways the four friends celebrate their coming of age . . .

.Pressestimmen In 1991, Maeve Haran scored a bestseller with *Having It All*, one of the first novels to acknowledge the problems of juggling a career and motherhood. Here she seems likely to strike a similar chord with the over-60s ... Haran is far too skilled a story-teller for the book to read like an exercise in box-ticking. The characters' own liveliness is reflected in a warm and often funny page-turner that strikes just the right balance between melancholy and defiance

James Walton, *Readers Digest* Maeve Haran, sixty-something and author of the ground breaking 1990s blockbuster *Having It All* has joined the party with this delightful take on the enduring power of female friendship. If 60 is the new 40 then this is the new chicklit ... a funny, feisty novel *The Daily Express*, Caroline Jowett *Lively Sainsbury's Magazine*
