Fab readVon Philomena(Cheekypee)What a truly lovely story of friendship love.Alan Sam met when they were 5. They held each other's hand through all the trials tribulations of what growing up had to offer.Then bang!!! Their lives fell apart.While reading this I kept thinking of the outcome. Never in my wildest dreams did I think it was gonna be this ending!!As much as I loved all this book I was biting my nails at about 80%... Read it. You won't be

disappointed. Received in return for honest review.

Kurzbeschreibung Alan Green and Samantha Cohn have known each other for as long as both can remember. They have a special relationship that has grown far beyond mere friendship. Inseparable, Al and Sam have spent their lives with one another from childhood secrets, through awkward teenage years, to finding themselves as adults. It's always been the two of them together. When unexpected tragedy hits, and Sam is left fighting for her life, Alan can only watch and wait. Left alone without his best friend, Alan spends his time reliving his past, ensnared in the memories of the chaotic relationship with the girl that stole his heart. How would you spend the time until?
