delightfullVon Isabella NortonDie Geschichte war sehr beschwingt zu lesen. Ich habe das Buch in einem gelesen und

mich künstlich unterhalten. Diese Variation von PP kann ich nur empfehlen.

KurzbeschreibungWhen a riderless horse interrupts Elizabeth Bennet's daily walk, she is inspired to begin the search herself. Finding a gentleman in the ravine of a creek bed, she scares off snakes and raises the alarm to end up with the man situated at Longbourn for his recovery. Enamored with his dark curls and handsome face, her life appears to be following the fairy tale story line of a novel, that is until the proud, disdainful Fitzwilliam Darcy of Pemberley wakes up. A sweetheart romantic novella, *The Trouble With Horses* is meant to be a light read for those irreparably addicted to all things Austen. The writing style does not attempt to mimic the incomparable Jane, and the author hopes you enjoy the fun, humorous story as you would an afternoon tea. **BONUS:** Learn where Mrs. West is writing her next story and how you can influence it! Plus a sneak peek at one of her projects!
