and wrote and wrote and wrote -- 30 million plus words in his career -- and just about everything he turned out is worth reading. And "The Untamed" is one of his best. Forget "The Virginian" and Zane Grey's pokey novels, "The Untamed" is the fictionalized west that we know and love, where men and women were larger than life and strode across a fantasy world of death, lawlessness, and strange beauty. After reading this novel, pick any other Faust/Brand title and give it a try: I guarantee you that you won't find a dud.
